General description Brazil:

The most important area for nautical sports in Brazil has thousands of beaches, Harbours and 365 islands. Among these islands, the biggest one is Ilha Grande with fantastic beaches and great surf. This wonderful landscape is surrounded by the Atlantic forest which leans over the sea's crystal clear warm waters. Angra dos Reis is located in the middle of the green coast of Rio de Janeiro, one of the most beautiful regions in the country, and hosts a great number of yacht clubs, condominiums and hotels along its coastline. The ones who sail can find excellent service and support. When you are not at sea, good times can be waiting in the many restaurants and bars the city has to offer, or a nice walk in the forest or even to one of the hidden waterfall. Those who enjoy diving will always find clear warm waters.

São Paulo and Rio de Janeiro are the two main gateways to Brazil. Flight times from Europe are approx 9/10 hours. Flight times between different cities in Brazil range between 40 min and 2hrs 50 min.

General description Portugal:

It is known by its pleasant weather, blue sky, and inviting landscape. The shore is full of cliffs rising from the Atlantic, from where ancient sailors departed to conquer a new world. Red rocks shelter large caves – large enough to allow boat manoeuvres! – and protect heavenly beaches, small harbours and modern marinas. Portugal has two archipelagos: Azores and Madeira. Islands known by their rich vegetation, exuberant flowers, tropical fruits, tasty ocean delights, and a fascinating underwater world.

From Faro airport to Vilamoura: about 20 km; taxi fare is about 28 € from the airport to the marina. You can also use our transfer service. We have three modern mini buses that will take you to our base. The fares are the same. You may also order your provisions earlier.

General description Gibraltar:

Gibraltar is a peninsula located at the entrance of the Mediterranean Sea. Its more famous Rock has an altitude of 426 meters. All its history, as well as its strategic localization, has allowed it to create a mighty image of strength. It is connected to Spain by land and Morocco by one short boat passage. It is English territory since 1704 and part of the European Union since 1973, under British ruling. One of the main attractions are the "Monkey's of Gibraltar" – these monkeys are also in North Africa, in regions inhabited by Berber people. The presence of these monkeys originated some legends that are the tourists' delights. Those who visit Gibraltar cannot leave without seeing dolphins.
